

Problem:
Alarm is going off

Open Manhole cover on the pump tank, is the pump running?

YES:
Pump or pump line is plugged.

Shut off power to pump.
(This will save the pump from burning out.)

Remove pump and clean blockage as needed.
OR
Call Steinbrecher Companies
763-274-0925

NO:

Disconnect power to electrical box.
Plug pump in directly to electric box.
Turn power back on.

Does pump run?

YES:
If pump is running than pump float is most likely bad.

Call Steinbrecher Companies
763-274-0925

NO:
Pump is burned out or has shorted out and needs to be replaced.

Call Steinbrecher Companies
763-274-0925

Note: Your pump is plugged in direct and has no float to control it. Once liquid level goes below alarm float level be sure to shut pump off.

Warning: All septic systems are installed differently. You need to take extreme caution when working with electricity. Please call a professional if you have any questions or if you are uncomfortable performing any of these tasks.
